PERTEMUAN ILMIAH TAHUNAN XXVIII

POGI

BANTEN 2026

1st ANNOUNCEMENT
28 th ANNUAL SCIENTIFIC MEETING OF THE INDONESIAN OBSTETRICS AND GYNECOLOGI ASSOCIATION (PIT POGI)

Theme: "Integrating Innovation and Equity: Advancing Women's Health in the Era of artificial intelligence. With highlight issue on: Non obstetric comorbidieties impact on women's health and pregnancy, Eradication of cervical cancer"

July 16 - 22, 2026

Nusantara International Convention Exhbition (NICE) – PIK 2 | Banten

Welcome Message from The President POGI,

Assalamu'alaikum warahmatullahi wabarakatuh,

Dear esteemed professors, esteemed doctors, and dear colleagues,

It is with great honor that We welcome each of you to the 28th Annual Scientific Meeting (PIT) of the Indonesian Society of Obstetrics and Gynecology (POGI), hosted this year in the stunning Province of Banten.

This prestigious meeting serves as a vital platform for the exchange of knowledge, the fostering of professional collaboration, and the exploration of cutting-edge developments in the fields of obstetrics and gynecology. Each year, we gather with a shared commitment to advancing women's health across Indonesia through rigorous scientific inquiry, ethical practice, and innovative solutions.

This year's theme, "Integrating Innovation and Equity: Advancing Women's Health in the Era of Artificial Intelligence," aptly reflects the dual imperative of embracing technological advancements while ensuring equitable access to healthcare for all. The rapid developments in artificial intelligence present remarkable opportunities for early detection and effective management of various health conditions. However, we must remain vigilant and proactive in ensuring that these benefits are equitably distributed, reaching all sectors of our society and eliminating any existing disparities.

In our pursuit of women's health, we confront several significant challenges, including the persistent presence of non-obstetric comorbidities and our concerted efforts to eradicate cervical cancer. Tackling these issues demands evidence-based strategies that are informed by innovation and bolstered through interdisciplinary collaboration. It is only through our combined efforts that we can overcome these obstacles and improve health outcomes for women across our nation.

I would like to extend my heartfelt appreciation to the organizing committee for their tireless dedication and hard work in curating a scientific program that is both pertinent and visionary. POGI remains steadfast in its commitment to supporting initiatives that enhance women's health and strengthen our medical profession as a whole.
As we embark on this gathering of minds and hearts, I wish each participant a fruitful and enlightening experience. My sincere gratitude goes out to everyone who has played a role in making this event a resounding success.
Thank you.

Wassalamu'alaikum warahmatullahi wabarakatuh.

Prof. Budi Wiweko, MD, OG (REI), MPH, FRANZCOG (Hons), FICRM
President POGI

Chairman’s Welcome Message from the Chairman of POGI Banten

Assalamu’alaikum warahmatullahi wabarakatuh,
Warm greetings to us all,
Om Swastiastu,
Namo Buddhaya,
Salam Kebajikan.

Distinguished guests whom I highly respect:

The President of POGI, Professors, Doctors, senior colleagues, and fellow Specialists in Obstetrics and Gynecology throughout Indonesia;

Esteemed participants of the 28th Annual Scientific Meeting (PIT) of POGI in 2026.

On behalf of the Banten Branch of POGI, allow me to express our deepest pride and highest honor that in 2026, Banten has been entrusted to host the 28th POGI Annual Scientific Meeting. This trust is an extraordinary responsibility for us, and we are fully committed to delivering the best possible organization to support the advancement of obstetrics and gynecology in Indonesia.

The grand theme of this year’s meeting, “Integrating Innovation and Equity: Advancing Women’s Health in the Era of Artificial Intelligence,” is highly relevant to the challenges of our time. We are entering a new era in which artificial intelligence, big data, and digital innovation are no longer merely concepts, but have become essential tools in improving the quality of women’s health care.

However, innovation will only be meaningful if it can be accessed equitably by all Indonesian women, without exception. Therefore, the integration of innovation and equity serves as a fundamental pillar for our progress.

This year, we highlight two important issues as the main focus of PIT 28 POGI:

First, “The impact of non-obstetric comorbid diseases on women’s health and pregnancy.” We recognize that an increasing number of pregnant women are living with comorbidities conditions such as hypertension, diabetes, thyroid disorders, and autoimmune diseases. These challenges require a multidisciplinary approach, the utilization of more advanced diagnostic technologies, and adaptive updates to clinical guidelines. Through AI-based innovations, we hope to enhance early detection and deliver more targeted management, ultimately saving more mothers and infants.

Second, “Accelerating efforts toward the elimination of cervical cancer in Indonesia.” Cervical cancer remains one of the leading causes of death among Indonesian women. Yet today, we stand at a historic moment—where vaccination, HPV DNA–based screening, and artificial intelligence–assisted tools can significantly accelerate our path toward cervical cancer eradication. POGI must take the lead in advocacy, education, and implementation across every corner of the country.

Through PIT 28, we hope that Banten will become a birthplace for new ideas, new collaborations, and scientific breakthroughs that will strengthen our collective efforts to improve the health status of Indonesian women.

Our sincere appreciation goes to the POGI Central Board, the national and local organizing committees, sponsors, educational institutions, hospitals, and all parties who have worked tirelessly to ensure the success of this event. May our togetherness yield broad and lasting benefits for society.

In closing, I wish you a successful and enriching participation in the 28th POGI Annual Scientific Meeting.
May this event provide inspiration, knowledge, and renewed spirit for us all.

Wassalamu’alaikum warahmatullahi wabarakatuh.
Thank you.

dr. Dhika Prabu Armadhanu, Sp.OG, Subsp.Obginsos, MKes
Chairman of POGI Banten

Chairman’s Welcome Message

Assalamu’alaikum warahmatullahi wabarakatuh,
Salam sejahtera (Greetings of peace) to all of us,
Om Swastiastu,
Namo Buddhaya,
Salam Kebajikan (Greetings of Virtue).

Esteemed professors, seniors, fellow specialists in obstetrics and gynecology, participants, and distinguished guests.
We offer our deepest gratitude to Allah SWT, God Almighty, for His grace and blessings that have allowed us to gather for The 28th Annual Scientific Meeting of Obstetrics and Gynecology in Banten 2026 with a shared spirit: to enhance the quality of women’s healthcare services in Indonesia.

Our main theme this year is **“Integrating Innovation and Equity: Advancing Women’s Health in the Era of Artificial Intelligence.”** This theme stems from the realization that every aspect of life in this world will face significant challenges from the advancement of artificial intelligence, and the field of obstetrics and gynecology is also at a major transition point.

We are witnessing the presence of artificial intelligence in obstetric imaging, big data for predicting pregnancy complications, telemedicine that opens access to services even in remote areas, and even wireless robotic surgery where the boundaries between the operator and the patient are non-existent. All of this offers extraordinary opportunities, but simultaneously gives rise to new challenges: access disparities, the ethics of data usage, and the need to enhance the competency of us as professional personnel.

Behind all the existing technological sophistication, we are still faced with classic, unresolved issues: the still-high maternal mortality rate, the continuing dominance of cervical cancer cases, and the increasingly complex reproductive health problems of adolescents.
Therefore, through this scientific forum, we will not only discuss how technology can assist our work, but also how we, as a medical community, ensure that these innovations can reach all levels of society fairly, safely, and ethically.
As a step towards solutions, let us:

1. **Enhance cross-disciplinary collaboration** – among doctors, researchers, government, and the technology industry.
2. **Optimize continuous training**.
3. **Strengthen empathy and the human touch** to address the ethical and patient data security challenges amidst the use of digital technology.
4. **Fight for equitable access so that women** from Sabang to Merauke can feel the benefits of technological advancements in the health sector.
5. **Integrate innovation wisely**, ensuring that technology is not only sophisticated, but also safe, ethical, and tailored to the needs of our patients.

My hope is that this Annual Scientific Meeting will become a space for sharing knowledge, building networks, and igniting the spirit of change. Let us welcome the future of women’s health in Indonesia with optimism, professionalism, and a strong commitment to widespread innovation for all.
Finally, I would like to thank all parties for their attendance and participation in supporting the realization of this event.
May Allah SWT bless our joint efforts.
Wassalamu’alaikum warahmatullahi wabarakatuh.
Salam sejahtera (Greetings of peace) to all of us.

dr. Usep Priatna Wiraatmadja, Sp.O.G.

ADVISORY BOARD

- **President of Indonesian Society of Obstetricians and Gynecologist:**
  Prof. Dr. dr. Budi Wiweko, Sp..OG., Subsp. F.E.R., MPH., FRANZCOG (Hons)., FICRM.
- **First Vice President of Indonesian Society of Obstetricians and Gynecologist:**
  Dr. dr. M. Alamsyah Aziz, Sp.O.G., Subsp. K.Fm., Subsp.TI(K)., M.Kes., Int. Aff. RANZCOG., FMAS.
- **Second Vice President of Indonesian Society of Obstetricians and Gynecologist:**
  Dr. dr. Surahman Hakim, Sp.O.G., Subsp. Urogin Re., MPH.
- **Secretary-General of Indonesian Society of Obstetricians and Gynecologist:**
  dr. Ulul Albab, Sp.O.G.
- **Deputy Secretary-General of Indonesian Society of Obstetricians and Gynecologist:**
  dr. Dhika Prabu Armadhanu, Sp.O.G., Subsp. Obginsos., M.Kes.
- **Chair, College of Obstetrics & Gynecology of Indonesian Society of Obstetricians and Gynecologist:**
  Prof. Dr. dr. Yudi Mulyana Hidayat, Sp.O.G., Subsp. Onk., DMAS, M.Kes.
- **Chair, Board of Trustees of Indonesian Society of Obstetricians and Gynecologist:**
  dr. Ari Kusuma Januarto, Sp.O.G., Subsp. Obginsos.
- **Head, Division of Organization & Membership of Indonesian Society of Obstetricians and Gynecologist:**
  dr. Bambang Wibowo, Sp.O.G., Subsp. K.Fm., MARS, FISQua.
- **Head, Division of Service & Professional Development of Indonesian Society of Obstetricians and Gynecologist:**
  Prof. Dr. dr. John Wantania, Sp.O.G., Subsp. K.Fm.
- **Head, Division of Planning, Finance & Organizational Asset Management of Indonesian Society of Obstetricians and Gynecologist:**
  Dr. dr. Tricia Dewi Anggraeni, Sp.O.G., Subsp. Onk.
- **Head, Division of Digital Communications & Big Data of Indonesian Society of Obstetricians and Gynecologist:**
  Dr. dr. Herbert Situmorang, Sp.O.G., Subsp. F.E.R
- **Head, Division of Member Advocacy, Assistance & Protection (PAPA) of Indonesian Society of Obstetricians and Gynecologist:**
  dr. Binsar P. Sitanggang, Sp.O.G., Subsp. Obginsos, SH. MH., CPMed., CPArb.
- **Head, Division of Partnerships, Cooperation & Entrepreneurship of Indonesian Society of Obstetricians and Gynecologist:**
  Dr. dr. Sutrisno, Sp.O.G., Subsp. F.E.R.
- **Head, Division of Scientific Affairs & Competency Development of Indonesian Society of Obstetricians and Gynecologist:**
  Prof. dr. R. Detty Sitti Nurdiati Z, Sp.O.G., Subsp. K.Fm., MPH., Ph.D.
- **Secretary, Division of Scientific Affairs & Competency Development of Indonesian Society of Obstetricians and Gynecologist:**
  dr. M. Adya Firmansha Dilmy, Sp.O.G., Subsp.K.Fm.
- **Member Division of Scientific Affairs & Competency Development of Indonesian Society of Obstetricians and Gynecologist:**
  - Prof. Dr. dr. Eighty Mardiyan Kurniawati, Sp.O.G, Subsp. Urogin Re.
  - Dr. dr. Hartanto Bayuaji, Sp.O.G, Subsp. F.E.R.
  - Dr. dr. Laurent D. Paulus, Sp.O.G, Subsp. Onk.
  - Dr. dr. Anak Agung Gede Raka Budayasa, Sp.O.G, Subsp. K.Fm.
  - Dr. dr. Shinta Prawitasari, Sp.O.G, Subsp. Obginsos.

OTHER INFORMATION

BANTEN PROVINCE : AN OVERVIEW

Located on the western tip of Java Island, Banten is a province rich in history, culture, and natural beauty. It offers a diverse landscape, from stunning coastlines and pristine islands to dense national parks and historical sites. The province serves as a crucial gateway between Java and Sumatra, with the major port city of Merak.

PIK 2 is a massive, modern, and rapidly developing new town located in Tangerang Regency, Banten, bordering North Jakarta. It's an extension of the popular PIK 1 area and is celebrated for its lifestyle destinations, beaches, and various attractions.

Natural Attractions in Banten

- **Ujung Kulon National Park**: A UNESCO World Heritage Site, this is a must-visit for nature lovers. It's home to the endangered Javan rhinoceros and offers opportunities for jungle trekking, wildlife spotting, and exploring pristine beaches like Peucang Island and Handeuleum Island.
- **Anyer and Carita Beaches**: These are the most famous and accessible beaches in Banten, known for their soft sands and calm waters. They are perfect for swimming, sunbathing, and enjoying fresh seafood.
- **Sawarna Beach**: Dubbed "the new pearl of Southern Banten," Sawarna boasts a long stretch of coastline with dramatic rock formations and impressive waves, making it a favorite for photographers and surfers.
- **Mount Krakatoa**: The legendary volcanic island can be explored through boat tours from the mainland. Visitors can hike the Anak Krakatau ("Child of Krakatoa") to witness the ongoing volcanic activity.
- **Tanjung Lesung**: This is a developing Special Economic Zone known for its tranquil beaches, water sports, and resorts. It's an excellent destination for a relaxing geta

OTHER INFORMATION

Notable Attractions in PIK 2

- **Pantai Pasir Putih (White Sand Beach)**: This is a man-made beach that has become one of the main draws of PIK 2. It's a popular spot for relaxing, taking photos, and enjoying the sea breeze.
- **Pantjoran PIK**: A themed culinary area designed to resemble a traditional Chinese village. It offers a wide array of Chinese and Asian street food and restaurants, with beautiful lanterns and a vibrant atmosphere.
- **Cove at Batavia PIK**: A scenic waterfront dining complex featuring trendy cafes and restaurants with stunning views of the sea.
- **Land's End**: A recreational area with a vibrant, beachy vibe, offering unique photo spots and a relaxed atmosphere.
- **Aloha PIK**: A new area with a Hawaiian-inspired theme, complete with tropical decorations and a selection of cafes and eateries.

Culinary Tourism in Banten

Banten's cuisine is a delightful mix of traditional Javanese and Sundanese flavors, often with a unique spicy kick.

- **Sate Bandeng (Milkfish Satay)**: A specialty of Serang, this dish involves deboning a milkfish, mashing its meat with spices, and then grilling it in its skin.
- **Rabeg**: A traditional Serang dish similar to a stew, made from mutton or goat meat with a rich, spiced sauce. It's often compared to a Middle Eastern-style stew.
- **Nasi Sumsum**: Fragrant rice cooked with bone marrow and spices, wrapped in banana leaves, and steamed. It's a rich and savory delicacy.
- **Laksa Tangerang: A disti**nct version of laksa from Tangerang city, featuring thick rice noodles in a creamy coconut milk soup, often served with shredded chicken or other toppings.
- **Angeun Lada**: A spicy and hot vegetable stew from Banten, often containing cow offal, showcasing the province's love for fiery flavors.
- **Emping Menes**: A crispy and slightly bitter cracker made from the seeds of the melinjo tree. It's a popular local snack.

TRANSPORTATION

From Soekarno-Hatta (CGK) Airport

- **By Bus**: The JA Connexion bus service by Perum Damri offers a direct route from Soekarno-Hatta Airport to PIK 2. This is often the most convenient and cost-effective option for a direct journey.
- **By Taxi/Ride-hailing**: A taxi or an online ride-hailing service (like Gojek or Grab) is the fastest way to get to PIK 2 from the airport. The journey takes around 15-30 minutes, depending on traffic.

From Across Indonesia

- **By Air:** The main entry point is Soekarno-Hatta International Airport (CGK), which serves domestic flights from all major cities in Indonesia. From the airport, follow the transportation methods mentioned above.
- **By Train (KRL Commuter Line)**: While there is no direct KRL station in PIK 2, you can take the KRL to a nearby station and continue with other transport. A common route is to take the KRL to Duri Station or Jakarta Kota Station, and then continue with a TransJakarta bus or an online ride-hailing service.
- **By Bus**: Inter-city buses from various provinces will typically drop you off at major terminals in Jakarta, such as Pulo Gebang or Kampung Rambutan. From there, you can connect to the TransJakarta bus network or use online ride-hailing services to reach PIK 2.
- **By Car**: If traveling by car from other parts of Java, you will likely use the Trans-Java Toll Road network. PIK 2 is accessible via the Prof. Dr. Soediyatmo Toll Road, which connects to the main toll roads around Jakarta.

Within Jakarta and Surrounding Areas

- **TransJakarta Bus:** The most effective public transport option. The 1A corridor (Balai Kota – Pantai Maju) directly serves the PIK area. From the Pantai Maju bus stop, you can continue to PIK 2's main attractions with a short walk or a ride-hailing service.
- **Shuttle Bus:** PIK 2 also provides its own internal shuttle bus service, which connects various points within the area.

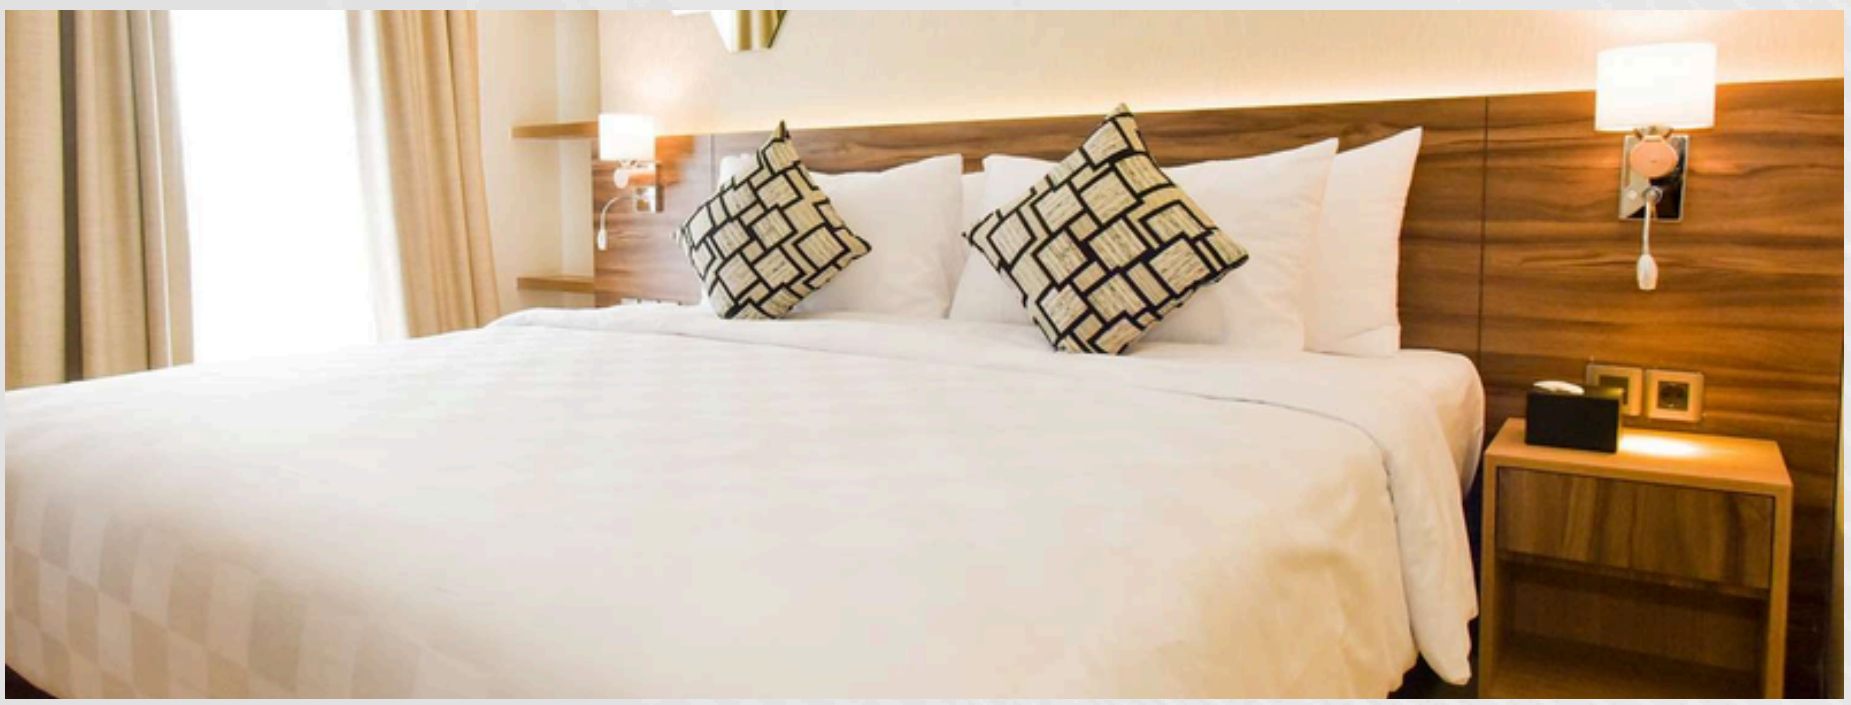

ACCOMODATION

Hotel Golden Tulip Essential

Golden Tulip Essential Tangerang memiliki 226 kamar tamu dan suite yang nyaman dengan desain modern yang memberikan suasana nyaman bagi setiap pebisnis dan wisatawan.

No	Tipe kamar	Harga
1	2 Bedroom with 3 Breakfast	1.180.000
2	Studio room with 2 Breakfast	900.000

22	Workshop Re-laktasi	1 day	16 July 2026	Specialist in Obstetrics & Gynaecology, OB-GYN Resident, GP, Midwives
23	Workshop Penulisan Karya Ilmiah dan Publikasi Internasional (online)	1 day	16 July 2026	Specialist Doctor, GP, Midwives, Nurse
24	Workshop KB	1 Day	18 July 2026	Specialist in Obstetrics & Gynaecology, OB-GYN Resident, GP, Midwives

SCIENTIFIC PROGRAM

2. SYMPOSIUM

Event Date	Duration	Participant Category
20 – 22 July 2026	3 days	• Specialist in Obstetrics & Gynaecology (including PPDS Sp2 / Trainee) • OB-GYN Resident & General Practitioner • Midwives, Nurses, Other Health Worker • Medical Students

PRELIMINARY SCHEDULE

DAY 1 | 20 July 2026

Time (WIB)	Activity (Room)							
06.30 - 07.00	**Registration**							
07.00 - 07.30	Opening Ceremony (Laporan Ketua panitia PIT)							
07.30 - 07.45	POGI Presidential Lecture: Integrating Inovation and Equity : advancing Women's Health in the Era of AI)							
07.45 - 08.00	Sarwono Prawiroharjo Lecture (Ditentukan oleh Kolegium POGI)							
08.00 - 08.45	Inauguration of Specialist and Subspecialist in Obstetric and Gynecology							
08.45 - 09.30	Inauguration of Fellow Indonesian Society Obstetric and Gyneology (FISOG)							
09.30 - 09.50	Presentation of Tadjuluddin Award, PAKIAS Award and POGI Award							
09.50 - 10.35	POGI Meeting							
10.35 - 10.45	Coffee break							
10.45 - 11.00	Keynote Lecture 1: New Paradigm and Transformation in Women's Reproductive Health and Right (Menteri PPPA)							
11.00 - 11.15	Keynote 2: Non obstetric comorbidities impact on women's health and pregnancy (FIGO)							
11.15 -11.35	Plenary simposium by samsung Samsung Unveils Premium OB/GYN Ultrasound System ‘HERA Z20’							
11.35-12.35	**Ranzcog Season (3 Speaker)**							
11.35 - 11.50	Ranzcog speaker 1							
11.50 - 12.05	Ranzcog speaker 2							
12.05 - 12.20	Ranzcog speaker 3							
12.20 - 12.35	Discussion							
12.35 - 13.00	**Praying Break**							
Lunch symposium (13.00 - 14.00)	**Could Genetic Polymorphism Be Limiting Our Efforts to Protect Future Generations? (Sponsored by Simex)**	**Kalbe topik transforming the standard care in obstetric & gynecology surgery**	**How we tackle anemia in pregnancy**	**Influenza Vaccine in Pregnancy (Sponsored by Kalventis)**	**Concurrent session 2: Managing Labour and Beyond**	**Nakula 6**	**Oral Presentation Nakula 7**	**POSTER Foyer Hall 9**
13.00 - 13.15	1.From Genes to Generations: Protecting the Unseen Future Through Maternal Nutrition	1. How to handle and prevent adhesion in gynecology surgery (HOGI)	1. Launching Guidelines: Screening and Management for Iron Deficiency Anemia During Pregnancy (HKFM)	1. From Evidence to Daily Practice: Influenza Vaccination in Pregnancy	1. Redefining Womens's Health through Genomic Medicine	DPP SESSION	Paper	Paper
13.15 - 13.30	2. Maternal Folate Status and Pregnancy Outcomes: Clinical Trial Perspectives	2. Retroperitoneal approach in Complicaated gynecology surgery (HOGI)	2. Differential diagnosis of anemia in pregnancy: should we confirm the diagnosis? (HKFM)	2. Integrating Internal Medicine Expertise into Influenza Vaccination in Pregnancy Protocols (PAPDI)	2. First trimester screening: It's role in NIPT Era (HKFM)		Paper	Paper
13.30 - 13.45	3. Implication of Active Folate Supplementation on Homocysteine Management in Maternal Health Policy	3. Reducing the risk of Injury in gynecology surgery (HOGI)	3. The role of genetics screening ; Thalasemia gene in pregnancy (HKFM)	3. The Pediatrician's View on Prenatal Influenza Vaccination (IDAI)	3. Launching Guidelines: Indonesian Guidelines of Prenatal Diagnosis and Fetal Teraphy (HKFM)		Paper	Paper

Time (WIB)	Activity (Room)							
13.45 - 14.00	Discussion							
14.00 - 15.00	**How to session 1: Primary amenorea**	**How to session 2 : Management on Reccurent Pregnancy Loss**	**How to session 3 : Mola Hldatidosa and GTN : screening protocol, follow up and management**	**Concurrent session 1 : Adolescent Pregnancy (HOGSI)**	**Concurrent session 2: Managing Labour and Beyond**	**Oral Presentation Nakula 6**	**Oral Presentation Nakula 7**	**POSTER Foyer Hall 9**
14.00 - 14.15	1. Diagnostic steps in primary amenorea causes	1. Preconception diagnosis in Patient with History of RPL (HIFERI)	1. Update Management and follow up to GTN	1. Closing the Gap: Best Practices in Adolescent Pregnancy Prevention (HOGSI)	1. Can we predict obstructed labour in ward using USG?	Paper	Paper	Paper
14.15 - 14.30	2. Management of primary amenorrhea what can general obgyn do?	2. Preconception Management in Patient with History of RPL (HIFERI)	2. Ultra Risk GTN	2. Adolescent Motherhood Supportive Care in Pregnancy, Childbirth and Beyond (HOGSI)	2. Ultrasound after delivery (HUGI)	Paper	Paper	Paper
14.30 - 14.45	3. Multidiscilinary management of DSD	3. Pregnancy management of patient with history or RPL	3. Role of surgery in GTN: what can General Obgyn do?	3. Collaborative Management: Termination of Adolescent Pregnancy (HOGSI)	3. The Use of CTG During Pregnancy and Labour	Paper	Paper	Paper
14.45 - 15.00	Discussion							
15.00 - 15.45	**Concurrent session 3 : AUB in reproctive health Moderator: Radjudin (HIFERI)**	**How to session 4 : Early detection in cancer.**	**Concurrent session 4: Environmental impact on reproductive health**	**Concurrent session 5 : Enhancing the best practice of labor and reducing unnecessary c-section (HOGSI)**	**Concurrent session 6 : Digital Safety in Obstetric and Gynecology (HOGSI)**	**Oral Presentation Nakula 6**	**Oral Presentation Nakula 7**	**POSTER Foyer Hall 9**
15.00 - 15.15	1. AUB Guideline : Important points (HIFERI)	1. How to diagnose early endometrial cancer and its management	1. Endocrine disrupting chemical exposure risk for reproductive health and pregnancy (HIFERI)	1. Strategy to improve VBAC to reduce unnecessary c-section (HUGI)	1. Protecting patient data in the digital age: cybersecurity challenges in obsgyn (Obginsos)	Paper	Paper	Paper
15.15 - 15.30	2. Innovation technology for AUB (Hyfu, RF) (HIFERI)	2. Cervical cancer in pregnancy : Balancing maternal safety and fetal well being	2. Lead Screening During Pregnancy and Lactation (HKFM)	2. Reducing Unnecessary C-Section: Ensuring Better Universal Health Coverage Policy (HOGSI)	2. Is Your OB/GYN Practice Ready for the Big Data Era? (HOGSI)	Paper	Paper	Paper
15.30 - 15.45	Discussion							
15.45 - 16.00	Coffe Break							

Time (WIB)	Activity (Room)							
16.00 - 16.45	**Controversies 1: When to do Surgery In Endometriosis (HIFERI & IGES)**	**Meet the expert 1 (HOGI) The Management of Gynecologic Cancer Accidentally Diagnosed After Surgery**	**Controversy 2: Uterine Transplantion in Abslute Uterine Factor Infertility. New Hope or Problems?**	**Freecom1 Best Oral Presentation (5 paper)**	**Controversies 3 (HOGSI)**	**Oral Presentation Nakula 6**	**Oral Presentation Nakula 7**	**POSTER Foyer Hall 9**
16.00 - 16.15	Radical Surgery for Deep Infiltrating Endometriosis (IGES)	Cervical cancer accidentally Diagnosed after surgery, What to do?	HOGI	Best Oral Presentation	Double-Edged Sword: Navigating on Social Media as a Modern OB/GYN (HOGSI)	Paper	Paper	Paper
16.15 - 16.30	Advances in pharmacotherapy for " inoperable" endometriosis (HIFERI)	Ovarian Cancer Accidentally Diagnosed After Surgery, What to do?	Hiferi	Best Oral Presentation	#ShareOrNotToShare: An OB/GYN's Digital Safety and Ethical Dilemma (HOGSI)	Paper	Paper	Paper
16.30 - 16.45	**Discussion**							
16.45 - 17.00	**Closing day 1**							
POGI NIGHT								

PRELIMINARY SCHEDULE

DAY 2 | 21 July 2026

Time (WIB)	Activity (Room)						
07.30 - 08.30	**AI Challenges in Medicine: Friends or Foe**						
07.30-07.45	1. Trustworthy AI in Medicine: Accuracy, Safety and Accountability (Prasandhya Astagiri Yusuf)						
07.45 - 08.00	2. Transforming Obstetric and Gynecologic Practice through Artificial Intelligence						
08.00 - 08.15	3. AI, Ethics and Bias: Responsible Implementation and Critical Appraisal in Women's Health						
08.15 - 08.30	**Discussion**						
08.30 - 09.30	**AOFOG Session (3 speaker)**						
08.30 - 08.45	AOFOG speaker 1						
08.45 - 09.00	AOFOG speaker 2						
09.00 - 09.15	AOFOG Speaker 3						
09.15 - 09.30	**DIscussion**						
09.30 - 09.50	Keynote lecture 3: RCOG Session (president)						
09.50 - 10.10	Keynote lecture 4: FOGSI Session (president)						
10.10 - 10.30	Keynote lecture 5: ASPIRE Sesssion						
10.30 - 10.50	Plenary sponsor by DKT IUD						
10.50 - 11.00	**Coffe Break**						
11.00 - 12.00	**Concurrent 7: Obesity in women's health**	**Concurrent 8: FGR**	**Concurrent 9: Preterm labor**	**ConcurrentHow to session 5: Towards healthy Midlife aged and elderly. 10: Vulvovaginal Mass. (HUGI)**	**Nakula 6**	**Oral Presentation Nakula 7**	**POSTER Foyer Hall 9**
11.00 - 11.15	1. Lifelong impact obesity across a women's lifetime stages (HIFERI)	1. Screening and diagnosis of FGR in Singleton Pregnancy	1. Intrauterine inflammation as a potential contributor to a long term neurodevelopmental disorder in Preterm Labor	1. Distinguishing vulvovaginal cyst (HUGI)	DPP SESSION	paper	paper
11.15 - 11.30	2. Management of pregnancy after bariatric surgery in obese pregnant woman	2. Management challenges of early and late onset FGR	2. cerclage is it effective to prevent preterm labor ? how is the technique	2. Mastering transperineal ultrasound for vulvovaginal masses (HUGI)		paper	paper
11.30 - 11.45	3. The Obesity-endometrial cancer link: From Risk Factors to preventive strategies	3. DOHAD: Long term Effects of FGR	3. Non surgical management to prevent preterm birth	3. Vaginal cyst treatment: options and consideration (HUGI)		paper	paper

Time (WIB)	Activity (Room)							
11.45 - 12.00	Discussion							
12.00 - 12.30	Praying Break							
	Room 1 Lunch symposium 6	**Room 2 (lunch symposium 7)**	**Room 3 (lunch symposium 8)**	**Room 4 (lunch symposium 9)**	**Room 5 (lunch symposium 10)**	**Oral Presentation Nakula 6**	**Oral Presentation Nakula 7**	**POSTER Foyer Hall 9**
12.30 - 13.50	**Role of Nutrition in pregnancy (Dexa medica)**	**Equitable access to endometriosis management: Bridging gaps in low resource and high tech setting,**	**Optimizing PPH management: from prevention to innovation.**	**Update on HPV Vaccine (cari sponsor HPV)**	**Urine incontinence & Sexual Dysfunction (sponsored. by BTL Emsella)**	paper	paper	paper
12.30 - 12.50	Essential Knowledge of Macro & Micro Nutrition for the General OBGYN	1. Addresing diagnostic delay and health disparities in endometriosis (HIFERI)	1. Evidence-based strategies for the prevention of PPH using EMOTIVE	1. New cervical cancer vaccine: How effective in the future (HOGI)	1. How pelvic floor weakness will make Urine Incontinence & Sexual Dysfunction	paper	paper	paper
12.50 - 13.10	Iron Supplementation & Therapy In Pregnancy: Oral vs IV	2. Guidelines management in Endometriosis and Fertility (HIFERI)	2. Implementation and Evaluation of the Multidisciplinary PPH Bundle Care Management (HOGSI)	2. Effectiveness of Adolescent HPV Vaccine Programme Management (HOGSI)	2. How electromagnetic wave could work stimulating pelvic floor muscle contraction	paper	paper	paper
13.10-13.30	Pleiotrophic Role of Vitamin D in Pregnancy	3. Now we can see superficial endometriosis through ultrasound (HIFERI)	3. Innovation in PPH Management highlight in Carbetocin (Wellesta)	3. Update management of cervical pre cancer lesion (HOGI)	3. Pelvic Floor Muscle exercise with BTL Emsella	paper	paper	paper
13.30 - 13.45	Discussion							
13.45-14.45	**How to session 6: Placenta Accreta Spectrum**	**How to session 7: Preeclamsia and long term risks**	**How to session 8: Adnexal mass, Defining the Border between Benign and Malignant in the Era if Precision Medicine**	**Concurrent session 11: Maternal infection**	**Panel Discussion : Maternal Mortality Rate Reduction Programs * (HOGSI)**	**Oral Presentation Nakula 6**	**Oral Presentation Nakula 7**	**POSTER Foyer Hall 9**
13.45-14.00	1. How to improve sc skill to prevent PAS in the future (HKFM)	1. How to decrease fatality rate in preeclamsia cases ? (HKFM)	1. Modern approach to Ovarian Mass Evaluation: The Role of RMO, IOTA and Next Generation Biomarkers	1. Update management on TORCH infection on Pregnancy	1. Policy to Practice: Importance of OB/GYN in Accelerating The Maternal Mortality Rate Reduction Programs (HOGSI)	paper	paper	paper
14.00-14.15	2. What is the optimal way to make the diagnosis to avoid catastrophe: Mapping & Planning for Surgery	2. Post Partum Preclamsia and Beyond	2. Management of Complex Adnexal Masses: From Ultrasound, Closed observation to Surgical Decision-Making	2. Update management in Maternal Sepsis. (HKFM)	2. The Roles of OB/GYN in Maternal Referral System (HOGSI)	paper	paper	paper
14.15 - 14.30	3. Bloody Business Accreta Surgery Made Easy.	3. Counseling and Future Maternal Cardiovascular Monitoring (HOGSI)	3. Risk Stratification in Adnexal Masses: Improving Diagnostic Accuracy and Reducing Over treatment	3. Management of Dengue in Pregnancy (HKFM)	3. Maternal Mental Health Updates: Managing Postpartum Blues and Depression (HOGSI)	paper	paper	paper
14.30 - 14.45	Discussion							
14.45 - 15.00	Coffe Break							

Time (WIB)	Activity (Room)							
15.00 - 15.55	**How to session 6: PlaceHow to session 10: Management twin pregnancynta Accreta Spectrum**	**How to session11: Endocrine disease in pregnancy Moderator: Benny Harmoko**	**Concurrent session 12: Non obstetric comorbidity in pregnancy.**	**How to session 12: POP (HUGI)**	**Concurrent session 13: What do we know about Nische and Its Impact.**	**Oral Presentation**	**Oral Presentation Nakula 7**	**POSTER**
15.00 - 15.20	1. Early diagnosis in twin pregnancy	1. Launching Guidelines : Management of Hiperglikemia in Pregnancy	1. Cardiac disease in pregnancy (HKFM)	1. How to diagnose POP in office setting (HUGI)	1. Standardized definition and diagnostic criteria for cesarean scar disorder integrating sonographic and clinical findings. (HKFM)	paper	paper	paper
15.20 -1 5.40	2. How to differentiate discordan twin vs TTTS	2. How to manage tiroid disease in pregnancy? (HKFM)	2. Obstetric comorbidity index to predict adverse outcome	2. Management options for POP (HUGI)	2. Impact of niche on fertility (HIFERI)	paper	paper	paper
15.40 - 15.55	**Discussion**							
15.55 - 16.55	**Controversy 4: Controversy in Preterm**	**MTE 2 (HIFERI)**	**Controversy 5 Controversies in OB/GYN Daily Practice (HOGSI)**	**free com 2 (Best oral presentation 5 paper)**	**How to Improve outcome in OASIS (Perineal Rupture grade 3-4) Management**	**Oral Presentation Nakula 6**	**Oral Presentation Nakula 7**	**POSTER Foyer Hall 9**
15.55 - 16.15	1. Cerclage vs progestin treatment in prevention preterm labour	1. ASPIRE*	1. Adolescent Contraceptive Clinical Care in Socio-Culturally Diverse Indonesia (HOGSI)	Best Oral Presentation	1. How to make precise diagnosis & to perform best suture techniques	paper	paper	paper
16.15 - 16.35	2. Periviable PPROM: Expectatif vs immediate delivery		2. Domestic Violence Against Women: The Mandatory Reporting Dilemma, Protection or Privacy?(HOGSI)	Best Oral Presentation	2. How to do best post operative care & evaluation management	paper	paper	paper
16.35 - 16.55	**Discussion**							
16.55 - 17.00	**Closing Day 2**							

PRELIMINARY SCHEDULE

DAY 3 | 22 July 2026

Time (WIB)	Activity (Room)					
07.30 - 07.50	Keynote Lecture MMR (HOGSI) Empowerment, Equity and Access: A Collaborative National Blueprint to Accelerate Reduction of MMR in Indonesia					
07.50-08.10	Best Practices of Reducing MMRWinning the Fight: GEMASIC Programme to Accelerate the Decline of MMR in Metro City Lampung Province					
08.10 - 08.30	International Speaker - FIGO PresidentFIGO Framework to Accelerate the Reduction of Maternal Mortality Through Global Best Practices					
08.30 - 08. 50	**Discussion**					
08.50 - 09.10	Great Obstetrical Syndrome: concept and evolution					
09.10 - 09.30	Intraamniotic Infection and Fetal Inflamation					
09.30 - 09.50	Prevention of Early Onset and Late Onset Preeclampsia					
09.50 - 10.10	**DIscussion moderator Sandhy Prayudhana**					
10.10-10.25	**Coffee break**					
10.25 - 10.45	Fertility Enhancement and reproductive Support (Sponsored Dexa medica Prolutex, Fostimon, Meriofert)					
10.45 - 11.05	Optimizing Maternal Health: The impact of active folate and micronutrients on Homocysteine Levels in Pregnancy and Preconception (Sponsored by Bayer)					
11.05 - 11.25	Global Landscape of Gynecologic Malignancies: Progress Challenges and Opportunities					
11.25 - 11.45	GUIDELINES RECOMENDATION SESSION : (HOGI & HIFERI)					
11.45 - 12.00	GUIDELINES RECOMENDATION SESSION II (HKFM)					
12.00 - 12.30	**Prayer break**					
12.30 - 13.50	**Room 1 (lunch symposium 11) Zambon**	**Room 2 (lunch symposium 12)**	**Room 3 (lunch symposium 13) - HOGI dengan sponsor Pembro atau Astrazeneca**	**Room 4 (lunch symposium 14)**	**Room 5 (lunch symposium 15)**	**Nakula 6**
12.30 - 13.50	Urinary track Infection in Women.	(Pfizer) vaksin blm konfirmasi	Perkembangan penggunaan Immuterapi pada kanker ginekologi	Infertility in modern sociaety: bridging science, ethics and humanity	AUB in adolescent: Integrating physiology, management and phyShosocial care	DPP SESSION
12.30 - 12.50	1. Why should aware of UTI in Women	1. Launching Guidelines: Guidelines for Maternal Vaccination	Perkembangan penggunaan Immuterapi pada kanker serviks	1. Changing epidemiology and determinants of infertility in modern society	1. Understanding the etiology and patophysiology of AUB in adolescent	
12.50 - 13.10	2. Long term complication of UTI in Women	2. Influenza, TdaP vaccine in Pregnancy	Perkembangan penggunaan Immuterapi pada kanker ovarium	2. Advances in ART and precision reproductive medicine	2. Medical management of Adolescent AUB : Balancing efficacy, safety and reproductive health	
13.10-13.30	3. Breakthrough management of UTI in Women	3. RSV Vaccine in Pregnancy	Perkembangan penggunaan Immuterapi pada kanker endometrium	3. Psychosocial, Ethical and Policy Dimensions In The Era of Modern Infertility (HOGSI)	3. Comprehensive Care and Counseling for AUB in Adolescent (HOGSI)	

Time (WIB)	Activity (Room)					
13.30-13.50	**Discussion**					
13.50-14.10	**Concurrent session 14: Fertility Enhancement and Reproductive support (Dexa Medica)**	**Concurrent session 15: Update in Preeclampsia**	**How to session 13: Gynecologycal malignancy.**	**Concurrent session 16: Management in PCOS**	**Concurrent session 18: Cosmetic gynecology when is necessary?**	
14.10-14.30	Do and don'ts in Diagnosis of Infertile Patients (HIFERI)	Launching Guidelines: National Guidelines for Management of Hypertension in Pregnancy	1. Management in early ovarian malignancy and its preservation	1. precision medicine approaches to metabolic and reproductive outcomes	1. Vaginal rejuvenation and cosmetic procedures: balancing aesthetics with functional outcomes (HUGI)	
14.30-14.50	Ovarian stimulation : practical points (HIFERI)	What variables we need to monitor in conservative management of preeclampsia?	2. How to differentiate myoma vs sarcoma	2. Lifestyle management and prevention for future cardiovascular risk ini	2. Gynecology cosmetic surgery after post partum and post radiation (HUGI)	
13.10-13.30	Supporting the luteal phase (dexa)	Labetalol in Managing Hypertension in preeclampsia	3. How to avoid Unpredicted Cervical Cancer	3. PCOS in adolescence	3. Role of microablative, laser, or radio frequency in cosmetic gynecology (HUGI)	
14.50-15.05	**Discussion**					
	Coffe Break					
15.05-16.05	**MTE 4 HKFM**	**Controversies 6:**	**How to session 14: Financial Management for Doctors**	**MTE 5 (OBGINSOS) Malpractice vs Medical complications.**	**How to session 9: Towards Healthy Midlife Aged and Elderly B.**	15.05-16.05
15.05-15.25	1. Hypertension in pregnancy: close monitoring vs sFlt/PlGF screening		1. How to be financially independent as a doctors		1. How to promote sexual function after menopause (HUGI)	15.05-15.20
15.25 - 15.45	2. Clinical spectrum of FGR: how we need to monitor		2. How to deal with taxes?		2. Future risk to prepare in menopausal women	15.20-15.35
15.45 - 16.05	discussion				3. Multidiscplinary Approach on Multifaceted Menopausal Women	15.35-15.50
					Discussion	15.50-16.05
16.05 - 16.25	**SCIENTIFIC AWARD ANNOUNCEMENT**					
16.25 - 16.45	**DOOR PRIZE**					
16.45 - 17.00	**Closing ceremony**					

GUIDELINES FOR FREE PAPER SUBMISSION

GENERAL REQUIREMENTS

1. To submit a free paper abstract, prior registration as a symposium participant is not mandatory.
2. Free paper participants who have submitted an abstract and been selected for oral/poster presentation are required to register and make payment as a symposium participant.
3. Failure to complete registration and payment as a symposium participant will result in the scientific work not being included in the PIT POGI 28 event.
4. The oral or poster presenter must be the principal researcher or a research team member (1 person) from the authors of the scientific paper.
5. The topics of scientific papers include:

• Obginsos:

1. Vaccination in pregnancy
2. Maternal mortality rate
3. Maternal mental health
4. Contraceptive updates
5. Adolescent Sexual and Reproductive Health

• Fetomaternal Medicine

1. Fetal growth restriction
2. Preeclampsia
3. Anemia in pregnancy
4. NIPT
5. Preterm birth

• Gynecologic Oncology

1. Endometrial cancer
2. Cervical cancer
3. Ovarian cancer
4. Gynecology surgery
5. Gestational trophoblastic neoplasia

GUIDELINES FOR FREE PAPER SUBMISSION

GENERAL REQUIREMENTS

• Urogynecology: Maintaining Women's Urogenital Health

1. Urinary Incontinence in Women
2. Pelvic Organ Prolapse
3. Urogenital Infections in Women
4. Female Sexual Dysfunction
5. Prevention and Maintenance of Women's Urogenital Health

• Reproductive Endocrinology and Fertility

1. Recurrent pregnancy loss
2. Abnormal uterine bleeding
3. Amenorrhea
4. Endometriosis
5. Menopause
6. Each free paper participant may submit more than 1 (one) abstract.
7. Scientific works must be original and have not been previously published.
8. Abstract submission can be done by uploading the abstract through the event website.
9. The deadline for abstract submission is **1 March 2026**
10. The determination of free papers receiving oral or poster presentation categories will be announced via the website and email no later than **25 March 2026**
11. The schedule for free paper presentations will be announced via the website and email.
12. If you have any inquiries, please feel free to contact the following: dr. Thomson Affendy, Sp.OG (0819 7249 727)

ABSTRACT WRITING GUIDELINES

1. Abstracts should be written in both Indonesian and English, with a maximum of 300 words , using Times New Roman font , font size 12 , single spacing.
2. The title should be written entirely in Capital Letters , Times New Roman font , font size 14. The title must be specific, clear, concise, informative, descriptive of the content, and appealing.
3. Author names should be written in full, without titles or abbreviations , in order with the first author listed first, followed by research team members, and finally the corresponding author (if different from the first author).
4. The first author is required to present their scientific work.
5. Affiliation should be written in full, not abbreviated. Example: Universitas Syiah Kuala, Banda Aceh, Indonesia.
6. Research abstracts should contain: Title, Researcher Names, Institution, Background, Objective, Methods, Results, Conclusion, and Keywords.
7. Case report abstracts should contain: Title, Name, Institution, Introduction, Case, Discussion, Conclusion, and Keywords.
8. Keywords: The maximum number of keywords is 5 (five) words, and the minimum is 2 (two) words

GUIDELINES FOR FREE PAPER SUBMISSION

FULL PAPER

1. Papers should be written concisely and clearly in Indonesian according to the Enhanced Spelling System (EYD) and standard medical terminology guidelines.
2. Papers should be typed in Indonesian , Times New Roman font , font size 12 , 1.5 spacing , with margins of 4 cm from the left edge and 3 cm from the top, right, and bottom edges.
3. The number of article pages should not exceed 10 pages , including tables and figures , and excluding the Front Page/Cover and References.
4. References should be arranged according to the Vancouver Style.
5. Research papers should contain: front cover, Indonesian abstract, English abstract, introduction, objectives, research methods, results, discussion, conclusion and suggestions, and references.
6. Case report papers should contain: front cover, Indonesian abstract, English abstract, introduction, case, discussion, conclusion and suggestions, and references.
7. Full Paper File Titles:
   - Research = Fullpaper_P_Full Name of Participant_University (abbreviated)
   - Case Report = Fullpaper_LK_Full Name of Participant_University (abbreviated)
   - Example: Fullpaper_P_Dayank_USK or Fullpaper_LK_Dayank_USK
8. The complete paper must be submitted in softcopy PDF format via email to ***freepaper@pitpogi28banten2026.com*** no later than **31 May 2026**

PRICE INFORMATION

No	Workshop Name	Duration	Event Date	Participant Category	Price		
					Early Bird up to 30 April 2026	Normal from 1 May 2026 up to 30 June 2026	On-site ffrom 1 July 2026
WORKSHOP (PRA PIT)							
1	Workshop Hysteroscopy in Daily Practices	1 Day	17 July 2026	Specialist in Obstetrics & Gynaecology, Trainee, OB-GYN Resident	3.500.000	4.000.000	4.500.000
2	Workshop Advances in Gynecologic Laparoscopy: Improving Safety, Precision, and Patient Outcomes	1 Day	18 July 2026	Specialist in Obstetrics & Gynaecology, Trainee, OB-GYN Resident	4.500.000	5.000.000	5.500.000
3	Workshop AUB	1 Day	18 July 2026	Specialist in Obstetrics & Gynaecology, Trainee, OB-GYN Resident, GP	3.500.000	4.000.000	4.500.000
4	Workshop Endometriosis and Adenomyosis Management	1 Day	16 July 2026	Specialist in Obstetrics & Gynaecology, Trainee, OBGYN Resident, GP	3.500.000	4.000.000	4.500.000

Terms and Conditions for Participants

1. Participants must first register online through the event website.
2. Please make the payment according to the invoice issued by the committee. The committee can not process payment validation if it does not match the invoice.
3. Once payment is made, please submit your proof of payment via this upload link: **https://abaproevent.com/pogi2026/reg/?page=konfirmasi**. Failure to provide proof of payment will result in your registration being left unprocessed by the committee
4. Participants must have a "Pelataran Sehat" account and provide the corresponding data upon online registration.
5. Registration can only be processed with full payment.
6. A payment confirmation email will be sent after the full payment is received.
7. The date of payment determines the registration fee. Even if the registration form is received before the deadline for the early price, normal price, or onsite price, it will not be considered valid for that price tier unless payment is received by the specified time.
8. The program is subject to change without prior notice. In the event of a meeting cancellation, the Organizer's sole obligation is to refund the registration fee.
9. Participants will receive a certificate and SKP from the Ministry of Health, which can be accessed via the "Pelataran Sehat Kemenkes" platform.
10. Hotel bookings can be made through the online registration page.
11. Registration fee and hotel payments are non-refundable.
12. Check-in and check-out times are subject to the hotel's policies and regulations. Any hotel services not included in the package will be charged to the participant directly by the hotel upon check-out.

Discounted Symposium Rate Terms and Conditions:

1. To qualify for the special symposium registration rate, participants must register and complete the payment for the workshop simultaneously, as per the invoice provided.

2. In the event of a workshop cancellation due to insufficient quota, the symposium registration fee will revert to the normal rate applicable on the date the payment was made
